Programmable portafilter espresso machine

With integrated conical grinder

11 grinding grade settings

»Coffee in coffee shop quality«

NEW

GASTROBACK®

- >> Programmable portafilter espresso machine with integrated conical grinder
- >> For freshly-ground coffee beans, coffee powder or ESE pads
- For all speciality coffees from espresso, latte macchiato, cappuccino and Americano to café crème
- >> Compact design, stainless steel housing (brushed)
- >> Thermo-block heating system: fast warm-up time (approx. 1.5 minutes)
- >> Professional ULKA espresso pump (15 bar)
- >> Integrated hot water function for café AMERICANO, café crème or tea
- >> Programmable water quantity each cup
- >> Pre-brew function
- >> 11 grinding grade settings and coffee powder quantity can be set individually
- Beans fresh container for 220 g beans for up to 30 shots of espresso
- Pressure gauge, control function for brewing pressure
- >> Heated warming plate for 6 espresso cups
- >> 360° rotatable milk frothing jet
- >> Removable 2.5 litre water tank

Included accessories: Double-walled filter insert for 1 and 2 cups, filter insert for ESE pads, milk frothing can, measuring spoon with espresso tamper, cleaning tool, water filter

Art.-No.: 42619
Dimensions: W x D x H: 288 x 305 x 395 mm
Performance: 220-240 V / 50-60 Hz / 1600 Watt

Weight: 8.3 kg Packaging Unit: 1 pc

60% Arabica, 40% Robusta

Countries of origin: Asia, Central- & South
America

Strong - full-bodied - chocolaty

SPEICHERSTADT CAFÉ PREMIUM ESPRESSO – WHOLE BEANS

Gourmet's coffee from excellent coffee roasters situated in Speicherstadt, Hamburg . The historical Speicherstadt - UNESCO world heritage and centre of European coffee trade.

Nowhere else coffee is imported, stored and controlled in such high amounts.

In close cooperation with the roastmasters of Speicherstadt coffeeroastry we created this unique gourmet espresso. It is characterized by a lowacid, long-lasting and smoothly chocolat-like taste.

» Gourmet Espresso Speicherstadt – Hamburg «

CHICAGO COFFEE HOUSE PREMIUM ESPRESSO – WHOLE BEANS

The Mandheling beans from Sumatra have a strong taste.

They develop a full flavour with a spicy and slightly chocolaty taste with a hue of sweet chestnut. The dark roasting gives a wonderful shine to the Arabica beans. The intensive coffee taste stays on your tongue for a long time.

100% Arabica

Strong and aromatic

Country of origin: Indonesia

»Aromatic and slightly chocolaty with a hue of sweet chestnut «

DESIGN BREW ADVANCED

Adjustable flow time

1.25 litres (10 cups) within 6 minutes

Perfect brew temperature

 W x D x H: 350 x 173 x 348 mm

 Performance:
 220-240 V / 50-60 Hz / 1550 Watt

Weight: 2.8 kg Packaging Unit: 2 pcs

GOURMETS REDISCOVER FILTER COFFEE.

The increasingly dizzying range of pure blend speciality coffees from choice regions is stimulating interest in the classic black beverage.

Harvested and processed gently by hand, the entire coffee grounds require even exposure to water in order to tease out the individual characteristics of these luxury products. With its eight-hole water channel, the Design Brew Advanced guarantees maximum moistening of the powder.

At the same time, the water temperature of 96 degrees Celsius recommended by baristas ensures that the aromas are extracted perfectly from the beans, without the coffee becoming acidic or unpleasantly bitter.

But different types of coffee need specific treatment. The water regulation feature on the Design Brew Advanced allows enthusiasts to adjust the percolation individually, producing a peerlessly full-bodied, aromatic and authentic brew! «

AQUA-CLEAN CAPSULE

Targeting bacterial coatings and biofilms in water tanks

Ideal for coffee/espresso makers

Service life: 2 years

- » Eliminates waterborne germs to prevent bacterial coating and biofilms in water tanks.«
- Eliminates waterborne germs to prevent bacterial coating and biofilms in water tanks.
- With integrated coffee mill, espresso makers and oral irrigators, as well as in water bottles, vases and other containers requiring water filtration
- >> Proven effectiveness
- Works without chemicals according to the catalytic principle and is therefore entirely harmless
- Simple handling and ready for use immediately in the tank/ container materials
- Best value for money: service life of 2 years, regardless of the treated water volume
- » Recommended tank/container capacity 3 litres; several capsules can be used simultaneously for larger vessels
- No negative interaction with other hygiene products for cleaning or descaling
- >>> Water temperature up to 60°C

Stabilisation of the microbiological quality of drinking water in water tanks and closed vessels

The Gastroback® Aqua Clean capsule was developed specifically to stabilise drinking water by eliminating the waterborne germs. This means that Gastroback® Aqua Clean capsules are ideal for use in the water tanks of coffee makers, machines with integrated coffee mill, espresso makers and oral irrigators, as well as in water bottles, vases and other containers requiring water filtration.

The capsules work according to the catalytic process by generating a microelectric field between the precious metal coatings, which causes a reaction and releases free radicals in the aqueous solution around the plated surfaces. These radicals – including hydrogen peroxide – eliminate microorganisms. The radicals themselves degrade into water during the reaction.

DESIGN STAND MIXER ADVANCED DIGITAL

- >> 5 litre stainless steel mixing bowl
- » Including additional 5 litre ceramic mixing bowl, suitable for microwaves and oven-resistant
- >> Powerful 600 Watt direct current high-performance motor (very quiet)
- >> Automatic adjustment of motor power for heavy dough
- >> 8 speed settings and pulse function
- >> Planetary mixer with sealed full metal drive
- Double kneading hook for working heavy doughs e.g., bread dough, pizza dough, kneaded dough for pie bases or baking dough
- Stainless steel whisk for various applications: Whip cream, egg or instant pudding smoothly and knead various light pastry types
- Stirring hook with wiper lip for folding in flour in loose biscuit dough or blending ingredients like nuts or dried fruit
- With included mincer attachment: 3 perforated discs (3 mm / 4.8 mm / 8 mm), sausage filling attachment and biscuit attachment and four different pasta discs for home-made fettuccine, spaghetti, linguine and macaroni
- With included mincer attachment including 3 perforated discs (3 mm / 5 mm / 7 mm), sausage filling, biscuit and kebab attachment and four different pasta discs for home-made fettuccine, spaghetti, linguine and macaroni
- >> LED program display, LCD display with count down function
- Solid cast aluminium housing
- >> Splash protection with feed opening

8 speed settings and pulse function

Double kneading hook

Powerful 600 Watt high-performance motor

Including ceramic bowl

TECHNICAL DETAILS:

ArtNo.:	40977

Dimensions: W x D x H: 358 x 210 x 367 mm

Performance: 220 - 230 V / 50 - 60 Hz / 600 Watt

Weight: 9.6 kg

INCLUDED

MIXING TOOLS

DOUGH HOOK & DOUGH PADDLE

For mixing and kneading heavy dough.

SCRAPER BEATER

For creaming, mixing, or folding in whipped egg whites or whipped cream.

WIRE WHISK

For beating and mixing runny ingredients.

3 STEEL MINCING DISCS Is installed in the mincer coupling.

KEBAB TOOLS

Sausage horn and sausage adapter

PASTA TOOLSFor spaghetti, macaroni, and tagliatelle.

COOKIE TOOLS

Metal cover and
cookie mask

WAFFLE IRON ADVANCED CONTROL

For 2 Belgian waffles

5 different programs

Waffle texture can be selected

Double heating elements above and below provide even heat distribution

- For 2 Belgian waffles
- 5 different programs (Belgian waffles, classic waffles, chocolate waffles, buttermilk waffles and own program)
- Waffle texture can be selected: Interior soft, outside crispy or crispy baked all-through
- >> 7 degrees of browning can be selected
- >> Automatic baking: fast heating at 1600 Watt for a golden-brown crust,
- >>> Baking at 800-1600 Watt
- >> Double heating elements above and below provide even heat distribution
- » Extra deep heating plates for especially light waffles, non-stick coating
- >> Control via LCD-display
- >> Countdown timer shows the remaining baking time
- >> Overflow protection collects excess batter

TECHNICAL DETAILS:

ArtNo.:	42424

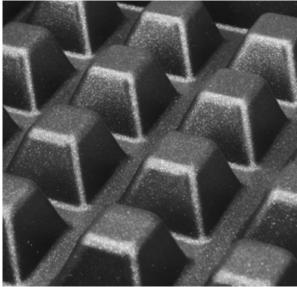

Dimensions: (WxDxH) 330 x 290 x 134 mm (closed)

330 x 365 x 330 mm (open)

Performance: 220 - 240 V / 50 - 60 Hz / 1600 Watt

Weight: 4 kg Packaging Unit: 2 pc

OVERFLOW PROTECTION
